ABSTRACT

This appendix contains statistical data supporting the 1969-70 progress report, "Longitudinal Evaluation of Selected Features of the National Follow Through Program." It is organized as follows: Part 1: Tables A-1 through A-4 show distributions of Fall 1969-70 achievement scores (Expressed as percent correct) by grade for Follow Through and non Follow Through pupils; Part 2: Tables A-5 through A-70 show Spring and difference scores for the achievement, attitudes toward school, and interpersonal feelings measures by grade and sponsor group for Follow Through and non-Follow Through pupils; Part 3: Tables A-71 through A-109 show achievement, attitudes toward school, and interpersonal feelings scores by grade and according to preschool experience, poverty classification, and Follow Through services received; Part 4: Tables A-110 through A-118 show scores for nine non-cognitive variables by grade and sponsor group for Follow Through and non-Follow Through pupils; Part 5: Tables A-119 through A-127 show direction of differences between Follow Through and non-Follow Through kindergarten and entering first grade pupils on measures of achievement, attitudes toward school, and interpersonal feelings in relation to various measures of behavior and attitudes in which Follow Through and non-Follow Through parents differed. These tables are also organized by sponsor group. For progress report, see ED 057 266. (Author)

LONGITUDINAL EVALUATION OF SELECTED FEATURES OF THE NATIONAL FOLLOW THROUGH PROGRAM

PREFACE

This appendix contains statistical data supporting the 1969-70 progress report, Longitudinal Evaluation of Selected Features of the National Follow Through Program. It is organized as follows:

Part 1: Tables A-1 through A-4 show distributions of Fall 1969-70 achievement scores (expressed as percent correct) by grade for Follow Through and non-Follow Through pupils.

Part 2: Tables A-5 through A-70 show Spring and difference scores for the achievement, attitudes toward school, and interpersonal feelings measures by grade and sponsor group for Follow Through and non-Follow Through pupils.

Part 3: Tables A-71 through A-109 show achievement, attitudes toward school, and interpersonal feelings scores by grade and according to preschool experience, poverty classification, and Follow Through services received.

Part 4: Tables A-110 through A-118 show scores for nine non-cognitive variables by grade and sponsor group for Follow Through and non-Follow Through pupils.

Part 5: Tables A-119 through A-127 show direction of differences between Follow Through and non-Follow Through kindergarten and entering first grade pupils on measures of achievement, attitudes toward school, and interpersonal feelings in relation to various measures of behavior and attitudes in which Follow Through and non-Follow Through parents differed. These tables are also organized by sponsor group.

PART 1

Table Number	Table Title
A-1	Distribution of Fall 1969-70 Achievement Scores at Kindergarten in 59 Projects
A-2	Distribution of Fall 1969-70 Achievement Scores at Entering First Grade in 23 Projects
A-3	Distribution of Fall 1969-70 Achievement Scores at Non-Entering First Grade in 48 Projects
A-4	Distribution of Fall 1969-70 Achievement Scores at Second Grade in 35 Projects

Instructions for Reading Tables A-5 Through A-70

Tables A-5 through A-70 all have a similar layout. The top half of each table shows standardized Spring or post scores and the bottom half of each shows the differences between Spring (post) and Fall (pre) standardized scores. Abbreviations used in column and row headings are as follows:

(1) Column 1--Poverty Category
Cert. Pov., Poss. Pov., and Not Pov. stand for Certain Poverty, Possible Poverty, and Not Poverty as defined in Appendix 1 of the report. Unknown identifies cases not included in the interview sample in projects where some interviews occurred at the grade level specified. No Int. means no interviews at that grade level in projects represented by pupil scores. The Reject row will always show zero entries. The Total is a vertical sum.

(2) Columns 2 and 6
Freq. denotes frequency of cases. The printout shows two zero places beyond the decimal which should be ignored. (These spaces were used for additional codes in other runs.)

(3) Columns 5 and 9
S.D. means standard deviation.

(4) Columns 2 and 6 vs Columns 13 and 14
The frequencies shown in Columns 2 and 6 represent the total number of pupils for whom poverty classifications were possible. The frequency shown in Column 13 (FT Report. Score) and Column 14 (NFT Report. Score) are the number of cases represented in the score distributions to which the means and standard deviations apply. The differences between Columns 2 and 13 or Columns 6 and 14 reflect incomplete test data to match with interview information, most usually owing to pupil absence during some of the testing in Fall or Spring or both. A fraction of the difference is attributable to changes in enrollment in the classroom between Fall and Spring.
